Skills

Languages and Tools: Java (Spring Boot), C#, JavaScript, HTML, CSS, PostgreSQL, MongoDB, Git, Postman, Heroku

Software Architecture: OOP, MVC, REST APIs, SOLID, TDD, SaaS, CI/CD, Domain-Driven Design, UML

Salesforce Technologies: Apex, SOQL, LWC, Custom MDT, Veeva, Mulesoft; Sales, Service and Experience Cloud

Experience

Triple Innovations – Zagreb, Budmanijeva 5

System Architect

Oct 2023 – Present

- Defined a department-wide coding standard and introduced test driven development resulting in more than 90% of production code covered with unit tests in multiple projects
- Coordinated architecture design sessions and created UML diagrams (ER, Class, Sequence) to clarify complex requirements to both technical and non-technical stakeholders
- Designed an automated case assignment testing framework, reducing manual testing effort

Technical Lead

Dec 2022 – Sep 2023

- Optimized an existing pharmaceutical tendering application by creating a configurable rule engine for country-specific business flows, decreasing future rollout efforts and cost
- Built automated CI/CD pipelines for Salesforce deployments in Azure DevOps using SFDX CLI reducing delivery times for new features and bug fixes
- Implemented REST APIs for an integration between an in-house telco CPQ solution in .NET and Salesforce, conforming to TMForum Open API standards

Software Developer

July 2020 – Nov 2022

- Refactored an order management integration between Veeva CRM and SAP using dynamic Apex data models, eliminating the need of additional code changes for model adjustments
- Developed reusable logging and error handling modules with email-based notifications in Apex

Projects

Yamb

- Developed a variant of the dice game Yahtzee as a web application in Spring Boot, a PostgreSQL database for player, game and score management, with a user-friendly mobile interface in React
- Implemented JWT based user authentication and multiplayer mode via WebSocket protocol
- Hosted on Heroku and available at jamb.com.hr, achieving more than 3000 recorded playing sessions to date

Education

University of Zagreb, Faculty of Electrical Engineering and Computing

MS in Computer Science

July 2021

- Represented the faculty at the annual University of Zagreb Exhibition in 2020

BS in Computer Science

July 2019

- Majored in Software Engineering and Information Systems

Certifications

Salesforce: Developer I, Developer II, JavaScript Developer I, App Builder, Associate, AI Associate, Agentforce Specialist

Mulesoft: Mulesoft Developer I, Mulesoft Associate
